Discover
the hidden value
of your idle assets

SIGMA Surplus pays competitive rates for industrial, mechanical and electrical parts.

Overlooked Value

When companies consolidate operation sites, close a plant, extract a production line, or are looking to reduce MRO carrying costs, they often overlook the value in their spare parts inventory.

We Make It Easy

SIGMA Surplus will visit your location, take inventory of your parts for sale, and make you an offer. We handle removal and shipping, to free up your space efficiently.

Sales Website

Our sales website helps you minimize production lag when you need to replace a part. We offer overnight and international shipping options to get you back up and running quickly.

We Are Looking For:

Hot Glue Dispensers
 HMI & Open Interface Panels
 Servo Drives & Amplifiers
 Variable Frequency Drives

PLC Racks
 Sealers & Sealing Machines
 General Purpose Motors
 Servo Motors

Pumps
 Gearmotors
 DC Motors
 Conveyors

SIGMA Equipment is the
new standard for selling
used equipment.

Ranked **#1** in
most searched terms
on Google for the used
equipment industry

300+ customers helped daily

Resource to **100k** buyers and sellers

How does SIGMA sell your equipment?

Consignment

We market, store and manage the entire process until the units are sold to maximize your return.

Outright Purchase

After inspecting your equipment, we make you an offer. If you accept, you'll receive prompt payment. We cover removal and shipping costs.

Web Listing

We create your online listing while you continue to store your equipment. We negotiate with potential buyers and bring you qualified offers for approval.

SIGMA Recovery combines all the services provided by SIGMA Surplus and SIGMA Equipment to create our complete asset recovery solution.

Our system combines cloud-based software, centralized equipment storage, and sales expertise to maximize the return on the value of an idle asset at every stage of the equipment life cycle.

SIGMA Recovery gives companies an easy way to implement a formal recovery program, or improve an existing program.

We help you eliminate costs and uncover the hidden value of your idle equipment.

Exponential decay of equipment value as it moves along the recovery method curve

Our system resolves industry inefficiencies with a cascading approach to the recovery process. We centralize and simplify your asset recovery efforts through redeployment, reconditioning, resale, and recycling of your equipment.

SIGMA Equipment is a full-service solution for used equipment sales, component sales, and asset recovery. We help you discover the hidden value of your idle equipment. Our divisions fulfill your needs at every stage of the equipment lifecycle, whether you are looking to redeploy idle equipment internally with SIGMA Recovery, resell idle equipment on the open market with SIGMA Equipment, or sell your spare parts inventory directly to SIGMA Surplus. We save you time, space, money and resources.
